

BOOST

Foam enhancer/builder

Description:

BOOST is a clear, viscous, light-yellow to tan colored liquid with extremely high foaming properties and detergency qualities.

Typical properties:

- pH of a 1% solution is about 7.5
- Extremely high foaming properties
- Superior wetting ability
- Anionic emulsifier
- Disperses oily residues
- Film free rinsing
- Stable in acid and alkaline solutions
- Approved as a vegetable wash!**

Uses:

BOOST can be used in all food processing plants as a foam enhancer, general purpose cleaner, soak, or manual cleaning agent. Use through existing foam generation equipment or other high pressure systems.

Light Soils: Use **BOOST** plus an all purpose cleaner for walls, tanks, and other equipment.

Heavy Soils: Use **BOOST** plus a strong alkaline cleaner such as Camco's **SUPREME** or **HIGH GLOSS** for heavy fat accumulations, smokehouses, and fermentors.

How to use:

Heavy Organic soils: Use 2-4 ounces of **BOOST** per gallon of water (16-32 mls per liter) plus 3-6 ounces (24-48 mls per liter) of a strong alkaline cleaner in 140°F/60°C water.

Inorganic soils: Use 2-4 ounces of **BOOST** (16-32 mls per liter) plus 2-4 ounces (16-24 mls / liter) of **ACID CLEANER PLUS, HYCID**, or similar acid cleaner with warm water.

Containers:

BOOST is available in 55-gallon / 450# drums, totes, and bulk.
