

BULLSEYE

Description:

BULLSEYE is a yellow-green colored liquid alkaline cleaner and degreaser. This product is water-based with citrus and other solvent enhancements to maximize grease, oil, and other soil removal properties. A special surfactant package is also included to enhance foaming properties and ensure quick, free, and easy rinsing properties.

Typical properties:

- Rapid grease cutting end emulsifying properties.
- Multiple solvents for efficacy and efficiency
- Water soluble
- Excellent for burned on greases and soils
- Quick, free, and easy rinsing properties
- Safe for painted surfaces and soft metals
- Environmentally friendly
- Mid-level foaming properties to maximize the variety of applications and uses.

Use:

BULLSEYE was designed for a wide array of uses. Use levels will vary depending on the application, soil loads, water conditions, method of application, and other localized factors. Typically, a water to product dilution will range from using a neat solution to up to 10:1. Be sure to rinse thoroughly after using this product.

Containers and Safety:

BULLSEYE is available in drums, totes, and pails. In case of eye contact, flush with plenty of fresh water and seek medical attention. Remove contact lenses immediately. If swallowed, seek medical attention and contact a poison control center immediately. We recommend rubber gloves, apron, boots, and eye protection be worn when working with this product to maximize the safety of all personnel. Please have all employees and personnel thoroughly read the MSDS prior to using this product. NOTE: This product may affect some plastic will concentrated solutions, extended contact, or immersion. Test a small area to prior to usage when in doubt.
