

SUMMIT

DESCRIPTION:

SUMMIT is a bright green colored liquid alkaline cleaner with excellent wetting and penetrating properties, controlled foaming characteristics, a quaternary ammonium compound to aid in odor and other control measures, and outstanding emulsifying properties.

SUMMIT delivers rapid and complete cleaning of greasy, oily soils from all surfaces, and is also ideal for use through automated floor cleaning equipment.

PROPERTIES

- Rapidly penetrates and emulsifies oils.
- Excellent wetting and detergency properties
- Cuts through tough greases and oils rapidly and effectively
- Superior water conditioning
- Contains a quaternary ammonium compound
- No hard water film
- Very strong cleaning properties
- Economical to use

HOW TO USE:

SUMMIT is specially formulated as an alkaline cleaner and degreaser for use in the food processing and related industries. It is USDA registered and is unsurpassed in emulsification and saponification properties to rapidly and completely remove greases and oils without leaving any hard water film. **SUMMIT** also contains a "quat" to aid in odor control and related issues. Ideal for multiple uses and economical to use.

- **LIGHT SOILS:** Use 1/2 to 2 ounces per gallon of water at 125-140°F (4-16 mls per liter at 52-60°C). Rinse thoroughly after use.
- **MODERATE SOILS:** Use 2-4 ounces per gallon of hot water up to 160°F (16-32 mls per liter up to 71°C). Rinse thoroughly after use.
- **HEAVY DUTY:** Use 4-8 ounces per gallon of hot water, up to 160°F through the proper pressure or foaming or automated equipment/scrubbers (32-64 mls per liter up to 71°C). Rinse thoroughly after use.

Sanitize after use if desired. Sanitizer 200Z, AQ-200 Chlorsan 100, Camco 400, or Guardian are recommended.
