

SURE FOAM

DESCRIPTION:

SURE FOAM is a heavy-duty, high-foaming, liquid caustic cleaner designed for use in the meat processing and other food processing industries where foam caustic cleaning is performed. **SURE FOAM** is especially effective in cleaning smoke houses, loading docks, fillers, inspection belts, moving tables, kill floors, cutters, and other food processing equipment suitable for caustic foam cleaning. Organic residues such as grease, fats, blood, and tissues are quickly emulsified and rinsed free from surfaces.

PROPERTIES

- Color— A light yellow to amber colored liquid
- Form—A semi-viscous liquid.
- Foam—A VERY HIGH foaming blend; stable foam
- Rinsing—Rapid and complete rinsing
- Solubility—Rapid and complete
- Emulsifying power—rapid and complete

OPERATING DATA

EQUIPMENT: Use **SURE FOAM** with existing or new foam generation equipment.

CONCENTRATION: Typically **SURE FOAM** is used between 4-8 ounces per gallon of water. Soil load and conditions will indicate proper dilutions level (32-64 mls per liter).

TEMPERATURE: Ambient to 120°F/49°C

BASIC INSTRUCTIONS: Pre-rinse to remove gross, loose soils. Apply a thick blanket of foam and allow to “eat” into soils for 10-15 minutes. **DO NOT ALLOW FOAM TO DRY.** Rinse well and sanitize if desired.

SAFETY

SURE FOAM contains sodium hydroxide. PLEASE use ALL appropriate safety gear and PPE when handling and working with this product. PLEASE thorough read MSDS prior to use. Rubber gloves, boots, apron, and face shield are recommended. A respirator may be needed in enclosed areas. Avoid contact with eyes, skin, or mucous membranes.

CONTAINERS

Available in drums, totes, and bulk. Special packaging upon request.
