

DEGREASER 14

Heavy duty grease/oil remover

Description:

DEGREASER 14 is a bright-green, liquid alkaline cleaner with enhanced grease and oil removing abilities (improved solvency action) and controlled wetting and foaming characteristics. **DEGREASER 14** is suggested for use in manual, foam, or soak cleaning applications.

Typical properties:

- Rapidly penetrates and removes greases, oils, and other soils.
- Enhanced wetting action
- Good water softening abilities
- Free rinsing and draining
- No hard-water films
- Safe formulation—USDA approved
- Moderate foaming properties

Uses:

DEGREASER 14 was designed as an alkaline cleaner and degreaser for manual, foam, soak, or high-pressure cleaning. **DEGREASER 14** provides rapid and complete removal of greases, oils, and other residues from equipment thus allowing easy and complete rinsing. **DEGREASER 14** may be circulated where some foaming is acceptable. Low-foaming versions are available upon request.

How to use:

NORMAL USE: Use 1/2-1 ounce per gallon of water at 125-145°F/52-63°C. Rinse well after use.

HEAVY DUTY and FOAM CLEANING: Use 4-8 ounces per gallon of water applied through the proper foam or pressure cleaning equipment. Allow 10-15 minutes of contact time (do not allow to dry) and rinse thoroughly.

Containers:

DEGREASER 14 is available in drums, totes, and bulk. PLEASE thoroughly read MSDS prior to use, and use all appropriate safety/PPE gear.

Safety:

DEGREASER 14 is alkaline and may require neutralization prior to disposal. Please check all appropriate regulations.
