

FOAMING ALKALINE #1

DESCRIPTION FOAMING ALKALINE #1 is a liquid, heavy duty, caustic cleaner. It is a high foam product for foam cleaning without additives. FOAMING ALKALINE #1 has excellent water conditioning properties and rinses very well. For heavy soil removal in dairy, meat, and poultry operations, as well as many other food industries. Hypochlorite may be added when a chlorinated product is needed. DO NOT use on aluminum or other soft metals.

DIRECTIONS FOAMING ALKALINE #1 can be used for general clean up of floors, walls, equipment, and conveyors. Use 1 to 2 gallons per 20 to 100 gallons of water for foam charge. For cookers and smokehouses, use 1 gallon per 50 gallons of water. Consult your representative for specific applications and concentrations in your operation.

SAFETY INFORMATION FOAMING ALKALINE #1 is for industrial use only. Keep out of reach of children. Corrosive. Contains caustic soda. Do not take internally. Always wear protective gear when handling any chemical solution. Add slowly to cool water to prevent splattering. Avoid contact with skin, eyes, or clothing. In case of contact, immediately flush skin or eyes with plenty of cool water for at least fifteen minutes. If irritation occurs, see a doctor.

Consult your Material Safety Data Sheet for additional safety information.
