

CHLOR FOAM 3030

Ultra-Concentrated, Chlorinated, High-Foam Built Alkaline Detergent

This product is designed for challenging foam and manual cleaning applications where high foam characteristics are desirable. It is strong enough to handle the most difficult soils and cleaning applications. This product is free-rinsing with high-pressure or normal pressure water.

CHLOR FOAM 3030 contains a high-level of sodium hypochlorite bleach to improve cleaning efficacy in a variety of conditions. This product contains both sodium and potassium hydroxide to yield the highest alkalinity available in a chlorinated, alkaline foaming detergent.

Physical Properties (Typical)

Appearance	Yellow Liquid
Odor	Chlorine
Density	10.3 pounds/gallon
Specific Gravity	1.24
pH (as is)	>13
Active Alkalinity	>14% as Sodium Oxide (Na ₂ O)

CHLOR FOAM 3030 is designed for use in foaming equipment including wall mounted and portable units.

Directions for Use

- In heavy soil conditions, use a 1 to 4% product per gallon of warm water.

CHLOR FOAM 3030 does not contain any nonylphenol ethoxylates (NPEs). It is better for the environment and is subject to fewer regulatory restrictions than similar NPE-containing products.

CHLOR FOAM 3030 will work in hard or soft water. Minor adjustments of foamer air pressure can result in large changes to the foam characteristics.
