

CHLOR FOAM

Concentrated, Premium, Chlorinated, High-Foam Built Alkaline Detergent

This product is designed for challenging foam and manual cleaning applications where high foam characteristics are desirable. It is strong enough to handle the most difficult soils and cleaning applications. This product is free-rinsing with high-pressure or normal pressure water.

CHLOR FOAM contains a high-level of sodium hypochlorite bleach to improve cleaning efficacy in a variety of conditions.

Physical Properties (Typical)

Appearance	Yellow Liquid
Odor	Chlorine
Density	10.2 pounds/gallon
Specific Gravity	1.23
pH (as is)	>13

CHLOR FOAM is designed for use in foaming equipment including wall mounted and portable units.

Directions for Use

- In heavy soil conditions, use 1 to 2 oz. of product per gallon of hot water.

CHLOR FOAM does not contain any nonylphenol ethoxylates (NPEs). It is better for the environment and is subject to fewer regulatory restrictions than similar NPE-containing products.

CHLOR FOAM will work in hard or soft water. Minor adjustments of the air pressure can result in large changes to the foam characteristics.
